Ms Wendy Lee

Sports Relief Therapy

Letter of Appreciation

1. After my 1st marathon in Standard Chartered Marathon Singapore in Dec'2011, my muscles were very tight and I was in need of sports massage.
2. I came upon a banner offering sports massage with reasonable price during my lunch time hour. I decided to make an appointment to try the sports massage and my 1st session was done by Wendy Lee. After the session, I felt so much better and decided to continue to go sports massage. Since then, I have been going for sports massage by Wendy regularly.
3. As I am running almost 3 to 4 times a week and mostly are back-to-back runs, I am glad to have been sports massaged regularly by her as she always know where my tight muscles are and will do her best to release these tight muscles. Thus, I have no serious injury so far.
4. Wendy is a very good therapist as she is able to analyse where the tight muscles are and how to treat them. She is friendly and humble, and able to get along well with her clients.
5. Hence, I always recommend her sports massage service to any of my friends who are having tight muscles or other muscles strain.
